

Webquest-Wales

Introduction

Your teacher asks you to make a 5-day-tour in Wales. You have to choose some interesting places in the country and make a plan how to travel around Wales. You are going to travel by plane and you have to rent a car for your tour. You are going with your family and you have not got too much money but you want to go into some museums or visit some interesting places. Finally, you want to buy some souvenirs for your friends.

Task

You have to choose some interesting places. You are going to make a travel map for the car or bus journey. The adventure will be in the summer, in August. You have to decide the starting date and the ending date. You have to book a ticket for the plane. Your plan includes the duration of the flight, ticket prices, meal prices and the length of the car journey, rent prices. Write down the names of the places that you are going to visit. Make a question page about your adventure for your parents.

Process

Use the Internet for your plan. First of all, plan your schedule and look at the way from place to place. Don't forget the money, the journey doesn't need to be expensive and at the end of it you want to buy some souvenirs, and during the journey you want to eat and drink. Maybe you want to take a tent with yourselves or maybe you want to book accommodation.

Resources

Website name: Guide to Wales

URL: <http://www.wales.com/>

Description:

You can find useful information about Wales.

Website name: Britannica

URL: <https://www.britannica.com/place/Wales>

Evaluation

If you make a well-organized plan, you can use it later, when you actually visit Wales. Don't forget, you are a child, but you have to plan the journey so that your parents will be interested in it as well.

Conclusion

Have you ever been to Wales? You have already visited it visually/virtually.
